“Individual Development Plan Workshop for Chemists”

Hosted by
American Chemical Society

Dr. Jodi Wesemann, Facilitator

Monday, October 10, 2016
12:30 – 3:00 pm
125 Baker Lab

Workshop outline:

- Discussion of the four critical pieces of career development, how they relate to your individual situation, and finding your career “sweet spot”

- Use of the online ChemIDP™ tool to get you started on completing an individual development plan and setting clear goals towards your desired career path

- A networking luncheon

The workshop is for Ph.D. graduate students and postdocs in the chemical sciences (at all levels) and relevant for those who are decided or undecided on their career trajectory.

The workshop focuses on mapping out a career plan by creating an Individual Development Plan (IDP).

Visit ChemIDP.org to see a video on ChemIDP™.
Space is limited.
