Universal Restrooms

In keeping with the University's policy of nondiscrimination and the commitment to inclusion, the university allows students, staff, faculty, and visitors to use the restroom or facility that corresponds to their gender identity. In addition, the University maintains a number of universal restrooms across campus to address restroom facility access not necessarily related to gender identity, such as access for parents with children of the other attendants/caregivers. The facilities are all-gender, accessible spaces, which may include amenities such as baby changing stations.
